**Let's continue our activities!**

Dear all,

these were hard, difficult times, but our team has never stopped believing in the project and in the possibility of contributing to the rebirth of our beloved territories through innovation that starts from tradition. And with great pride we announce the start, this month, of the cheese making trials for the pilot-scale production of two Mediterranean cheeses, being the Italian specialty *Caciofiore* cheese and Queso de Murcia PDO. These first cheeses, coagulated with vegetable rennets extracted from wild *Onopordum* flowers, were made thanks to the collaboration of small local dairies, which we sincerely thank!!
